Swiss Hiking Tour along the Grand Tour of Switzerland

Martha Nussbaumer

Qualified Hiking Guide BAW

(Grisons Hiking Trail Association)

I grew up on a farm high above Lake Zug. Today I live in the beautiful Ägeri Valley above Lake Ägeri. I love and respect nature with all its beauty and endless wonders. I have five children and used to spend every day outdoors with them in any weather. On a daily basis, I tend lovingly to a large herb garden, organise workshops and pass on my experience with medicinal plants.

My professional mainstay is my surgery, where I work as a medical massage therapist. As a qualified hiking guide, I organise and accompany hiking tours to nearby and faraway places. When I'm on a hike, I am interested in the plants at the side of the path, and I'm happy to share my knowledge. You never stop learning. I immensely appreciate that, as a hiking guide, I am able to bring people closer to nature. Nature gives us so much; it is a wonderful source of strength.

I am really looking forward to the Swiss Hiking Tours along the Grand Tour of Switzerland. Switzerland is a country of unparalleled beauty; let's discover it together!
